Due to the pandemic many parents lost their jobs. Some students became orphans. They want to continue their education unfortunately most of them cannot afford even the nominal fees we charge. We cannot deny admission and we admitted all the students. Your contribution would help us to promote such students.

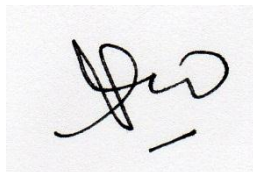

I am sorry to inform you that I and my wife Mrs. Stella Jacob decided to retire from the service of ISEAF on 31/3/2022. It was very pleasant period of our life to work for ISEAF for last 20 years. I am grateful for all your co-operation and support to make this organisation a great success.

Please find enclosed here with few successful stories of our scholarship students who completed their education with your help. Also find some successful stories of students who completed their vocational courses from our institutes and presently working.

We are grateful for your co-operation and contribution. This noble work is possible only because of your patronage.
